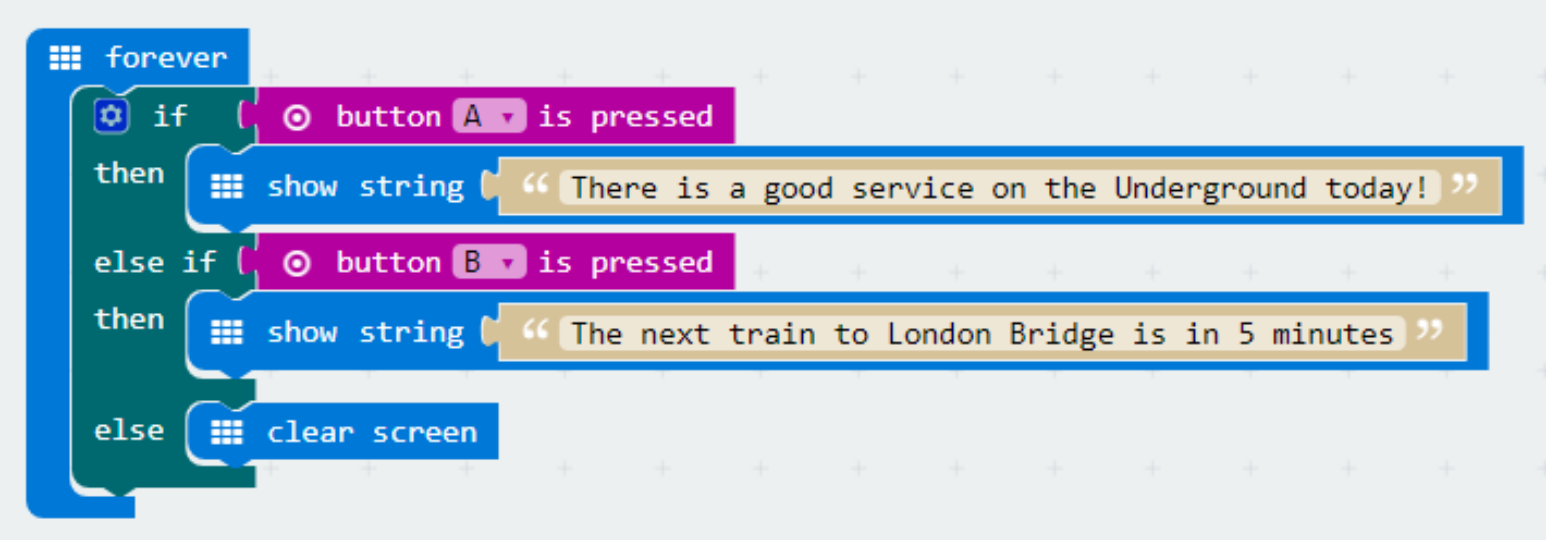
Example Program – JavaScript Blocks Editor



- Go to www.microbit.org/code and open the **JavaScript Blocks Editor.**
- Drag the file **microbit-transport-jsb.hex** onto the work area.
- Test it, download it and **experiment** with how it works!

Example Program – Python Editor

```
1  from microbit import *
2
3  while True:
4      if button_a.is_pressed():
5          display.scroll("There is a good service on the Underground today!")
6      elif button_b.is_pressed():
7          display.scroll("The next train to London Bridge is in 5 minutes")
8      else:
9          display.clear()
10
```

- Go to www.microbit.org/code and open the **Python Editor.**
- Drag the file **transport.py** onto the work area.
- Test it, download it and **experiment** with how it works!
