

## Pre-Written Program

- This program has been written in **JavaScript Blocks Editor**.
- Open the editor and drag the file **microbit-counter-jsb.hex** onto the work area.
- **Download the program** onto your BBC micro:bit.

## Pre-Written Program

```

1 from microbit import *
2
3 score = 0
4 display.show(str(score))
5
6 while True:
7     if button_a.was_pressed():
8         score += 1
9         if score < 10:
10            display.show(str(score))
11        else:
12            display.scroll(str(score))
13

```
