# Look at me now

## Tommy Technology

It wasn't all that long ago
When I was just a teen,
I tried to work out everything
By just using a screen.

Now English, Maths and Geography
For those I had a tutor,
But the brilliant things I could do
Were always on a computer.

So I practised building programmes
And my brain was overloading,
As nothing made me happier
Than when I started coding.

I really wanted to be the best
At creating applications,
Then I could help so many schools
That need good information.

So as I grew, I studied hard
Including nanotechnology,
It's really nice to meet you all
Hi, I'm Tommy Technology.
