How to play

Any number of people can play

- Print the cards and cut them out.
- Shuffle and deal the cards face down.
- Each player holds their cards so that they can see the top card only. The player to the dealers left starts by reading out an item from the top (e.g. Entry salary £18K).
- The other players then read out the same item.
- The one player with the best or higher value wins and places all the top cards including their own to the bottom of their pile. It is then their turn again to choose an item from the next card.
- If two or more cards share the top value, then all the cards are placed in the middle and the same player chooses again from the next card. The winner of the hand takes the cards in the middle as well.
- The person with all the cards at the end is the winner.
