

FIRST® LEGO® League

Creating the engineers of tomorrow

FIRST® LEGO® League is an inspiring, global programme for young people, which develops confidence, problem solving, teamwork and STEM (science, technology, engineering and maths) skills.

We deliver three programmes across the UK and Ireland for children aged 4 to 16 years.

"There are no words that can express my appreciation for what this programme has done for the children involved. It is for me without doubt of huge value to UK and Irish education. I often tell the students that there are days that stay with you as long as you live. IET FIRST® LEGO® League keeps supplying our team with those, so thank you for that."

Neil Corrigan, Team Coach
