

We hope all our fantastic RePLAY teams have been enjoying getting active and creating some fantastic robots and solutions! We want to see what you've been doing this season and to feature your team in our first ever YouTube live stream on 2 July 2021!

**The three videos we want to see are:**

## Robots

Send us some videos of your robot game practising sessions, whether that's at home, at school, or at your LEGO club. We want to see them on the game table, completing missions - the good runs, the ones that maybe go a bit wrong, and everything in between. We'd love to see some close ups showing off your robot designs in action too!

## Project presentations

Send us a video of your team presenting your Innovation Project presentation – talk us through your ideas, how you came up with your solutions and how you worked together as a team. This could just be a video of your team talking to camera, demonstrating your Innovation Project with something you've made, or it could be something even more creative!

## Teamwork makes the dream work

Everyone who participates in *FIRST*<sup>®</sup> LEGO<sup>®</sup> League knows that teamwork makes the dream work! So we want to see your team doing the *FIRST*<sup>®</sup> LEGO<sup>®</sup> League dance - find the YouTube video [here](#) to learn the moves and send us your videos of your team dancing along to 'Teamwork Makes the Dream Work!'
