

Build, code, research and share with

FIRST® LEGO® League Explore

An exciting STEM programme
for 6-9 year olds, delivered by
the IET in the UK and Ireland.

FIRST® LEGO® League Explore rapidly
develops teamwork, design, programming and
communication skills. It makes children feel
proud of what they have achieved – encouraging
them to continue engaging with STEM.

Working in teams of up to six, *FIRST*® *LEGO*® League Explore can be delivered in two ways:

1 Delivered as either curricular or extra-curricular, teams work towards attending a regional festival event along with other teams to share their accomplishments.

2 Delivered within the curriculum, *FIRST*® *LEGO*® League Explore Class Pack engages a whole class, with an in-school festival to celebrate their achievements.

Teams will:

- design and build a *LEGO*® model based on the annual theme
- program a moving element using *LEGO*® Education SPIKE™ Essential*
- display research and learning on a team poster
- develop teamwork, communication and coding skills
- prepare to share at a festival!

Festival registration, Class Pack registration and top-up pack costs are all available on our website.

"I have found the introduction of *FIRST*® *LEGO*® League Explore into our schools extremely beneficial in terms of embedding the necessary skills earlier in the key stages. Not only does it promote the skills needed to build and program, it encourages the essential skills of independent learning, critical thinking and team work. *FIRST*® *LEGO*® League Explore provides a safe environment to explore these skills without fear of failure or the pressure of attaining a result."

Fran Ward, *FIRST*® *LEGO*® League Explore Host

*Please note: A *LEGO*® SPIKE™ Essential robot is the recommended robot for this programme. Other robots can be used, but please refer to the website for further details on which ones.
