

Cardboard creations

Education

Draw or write about as many ideas as you can for your cardboard box creation. You could make a castle, robot, rocket or musical instrument. Why not go big and think about a box that you could get into or have some fun with. No ideas too big!

1. Ask	What do you want your box to do? Will it be for you or to help other people?

3. Design

Now it's time to make sure your work is the best you can do! Draw your final design here and add labels to show how it works.

What materials and tools do you need?				

4. Build

It's now time to have fun and turn your design into a model!

Don't forget to take photos of your finished cardboard box design as well as of this sheet and add them to social media so we can see and share them! Happy modelling!
