

## terative design

Iterative design is a way of designing products - it involves:

Making a model of the design idea.

Testing the model to see if it meets the needs of the user.

## Evaluate

3

Evaluating the model to decide how it could be improved.

**@IETeducation f** IETeducation

Designers keep going round this loop until the product meets the needs of the users really well.

The Institution of Engineering and Technology (IET) is working to engineer a better world. We inspire, inform and influence the global engineering community, supporting technology innovation to meet the needs of society. The Institution of Engineering and Technology is registered as a Charity in England and Wales (No. 211014) and Scotland (No. SC038698). Michael Faraday House, Six Hills Way, Stevenage, Hertfordshire, SG1 2AY, United Kingdom.
