

# FIRST® LEGO® League Explore

## Build, code, research and share

An exciting STEM programme  
for 6-9 year olds.

Prepare to share in one of two ways:

- attend a regional Festival to celebrate your learning
- deliver FIRST® LEGO® League Explore in your classroom with our Class Pack option

Participants:

- work in a team to design and build a LEGO® model based on the annual theme
- program a moving element using LEGO® Education WeDo 2.0 software
- display research and learning on a Show Me poster
- develop teamwork, design, programming and communication skills

UK and Ireland statistics:

over **1,000+**  
teams in 2019-  
2020 season

**6,000**  
young people participated

Develop STEM skills and start thinking like an engineer.
